PACHA Full Council Meeting: Discussion on Private Sector Engagement with the Ending the HIV Epidemic (EHE) Initiative
November 17, 2021

Sara Zeigler, MPA
Associate Director for Policy
National Center for HIV, Viral Hepatitis, STD, and TB Prevention
Centers for Disease Control and Prevention
Opportunities: A Call to Action

- Private sector partners: outside of government institution direct control
- Engagement for action: not solicitation for funding of government-sponsored activities & minimal costs to USG to facilitate
- Range of activities for different private sector organizations to embrace the ‘movement’ to end the HIV epidemic
- Identify incentives for engagement
- Recognition is highly valued
How the Private Sector Might Embrace EHE

Health care/health system partners

- **Health Insurance Groups:**
  - Routine HIV Testing, Incentives for medication adherence & compliance with USPSTF recommendations

- **Health and Hospital Systems:**
  - Routine HIV testing, screen & link to PrEP, incentives for medication adherence, partnerships with CBOs and syringe services programs

- **Provider Associations:**
  - Training on guidelines, culturally responsive care, PrEP uptake, linkage to social services (e.g., housing, transportation, and job training or employment services)

- **Pharmacy Groups:**
  - Routine HIV testing, support adherence and engagement, provide access assistance (e.g., financial assistance programs)
How the Private Sector Might Embrace EHE

- **Life Insurance Groups**
  - Institute polices that allow those taking PrEP to be eligible for life insurance

- **Foundations**
  - Support marketing campaigns encouraging HIV testing/PrEP usage among high-risk populations
  - Leveraging high-profile events and/or individuals to promote specific actions (e.g., influencer campaigns)

- **Other Private Sector partners – Supportive Services**
  - Transportation
  - Childcare

- **In-Kind**
  - Collaborations for research projects, program implementation and evaluation
  - Product
How the Private Sector Might Embrace EHE

- **Large Employers**
  - Engage people with lived experiences in boards and other EHE support efforts
  - Incorporate HIV testing and other HIV prevention activities in wellness campaigns
  - Ensure employee health insurance plans cover necessary HIV treatment and prevention measures; consider incentives
  - Provide support services for persons with HIV and ‘safe spaces’ or LGBTQIA+ Alliance Groups
Recognition Programs Can Work: Million Hearts

- Recognition accelerated implementation of best practices
  - Provided needed information on best practices and successful implementation of clinical and system practices
  - Individual Pledges
  - Medication Adherence Recognition: Data-driven effort focused on clinical practice - large systems and community-based clinics (133 Champions)
  - Innovative system approaches
Potential next steps to spur private sector engagement

- Highlight the critical role of the private sector in the National HIV Strategy and ending the HIV epidemic activities
- Develop toolkit with easy to adopt strategies for wide variety of private sector partner organizations to embrace
  - Include communication, evaluation, and other resources to ensure success and sustainability
- Establish recognition program(s), including “Podium” events
- Consider leveraging an established or developing new private sector alliance to formalize private sector involvement
